How Do We Use "Cookies"?

A cookie is a series of data characters that, when programmed into a Web site, is placed by the Web server into the browser's application folder on your computer. Once placed onto your machine, the cookie will allow the Web site to "recognize" you as a unique individual. Visitors should be aware that non-personal information and data may be automatically collected by the VMG Web site to facilitate the visitor's ongoing access to and use of the site, and allow the site to track usage

behavior and compile aggregate data that will allow content improvements. Cookies are not programs that come onto a visitor's system and damage files. Generally, cookies work by assigning a unique number to the visitor that has no meaning outside the assigning site. If a visitor does not want information collected through the use of cookies, there is a simple procedure in most browsers that allows the visitor to deny or accept the cookie feature.

VMG welcomes children to learn more about us. However, we encourage this to be done only with their parent or guardian's knowledge and supervision. Accordingly, we will not knowingly collect or use any personal information from children that we know to be under the age of 13. If VMG should collect such information in the future, it will do so only in accordance with the Children's Online Privacy Protection Act of 1998.
